Certified Web Developer

I am a freshly graduated boot camper, coming out of a full stack web development course by edX, hosted by Washington University. I am knowledgeable in full stack web applications, with a proficiency in front end visuals. Having worked in a retail environment and learned in a web development bootcamp, I am prepared to hit the ground running and become a great addition to your team.

EDUCATION

June 2023 – Dec. 2023 – edX/Washington University

Full Stack Web Development Bootcamp

- Delivered projects in JavaScript, HTML, and CSS.
- High intensity, accelerated learning environment. Weekly projects, many needing to be built from scratch.
- Carried out 3 group projects from planning to deployment. Fast paced deadlines of 1 week to build applications from scratch.

WORK EXPERIENCE

2021 – 2023 – MENARDS

TEAM MEMBER

- Provide great customer service, keep inventory of product, and restock product
- Often trusted to independently work in my department, which involved both opening and closing shifts.
- Worked in a fast-paced retail environment, where there was constant problem solving and task managing.
